

LINKTOP

LinkStetho

Perform the professional heart and lung examination at the comfort of your home.

BENEFITS

Examination quality control

The system helps carry out the examination correctly: a step by step tutorial will guide you. Excess noise will be monitored automatically, as it may impact the results.

Easy contact with a doctor

After finishing the examination you can share the data with your doctor via e-mail or Social applications and consult them without leaving home.

Wireless stethoscope

The stethoscope connects to a mobile device via Bluetooth without the need of device pairing.

Noise control

Informs of excessive noise in the room.

Automatic start/stop

Records sounds automatically once the stethoscope is put to the body correctly.

Telemedicine

Enables remote consultation irrespective of where you are.
